

ENCORE CERAMICS  
HANDMADE TILE *for an* ARTFUL INSTALLATION

# DREAM PRECOCIOUS GLAZE P2

 High glaze movement.  High color range.

**A rusty amber that can range to gold or to yellow, with high movement opalescence, including pink and purple tones. Pooling and thinning dramatically increases color hue and opalescence on carved pieces. Glaze breaks will occur on relief revealing touches of golds and rusts.**

**Smaller pieces:** *Expect each piece to vary greatly from light to dark.*

**Medium + Larger pieces:** *The hand applied glaze application will give you a full range of tones.*

**Carved pieces:** *Expect to see pooling in deeper areas and a lighter application on high areas. Each piece will vary greatly from field tile.*

## EXPECT TO SEE ANY OR ALL OF THIS RANGE

Each order is custom made and is not returnable. Expect variation from order to order.

**BY SIGNING, YOU ACKNOWLEDGE YOU'VE REVIEWED THIS WITH YOUR CLIENT.**
