# SODALITE CRACKLE GLAZE SOD

High glaze movement.

High color range.

An aged Prussian blue with washes that range from evergreen to umber. Each piece may vary from a clear blue, to a heavily antiqued wash. Glaze will appear lighter on high relief and darker on lower relief.

**Smaller pieces:** Expect each piece to vary greatly from light to dark.

**Medium + Larger pieces:** The hand applied glaze application will give you a full range of tones.

**Carved pieces:** Expect to see pooling in deeper areas and a lighter application on high areas. Each piece will vary greatly from field tile.

## EXPECT TO SEE ANY OR ALL OF THIS RANGE

Each order is custom made and is not returnable. Expect variation from order to order.
