

ENCORE CERAMICS

# Glaze & Size Variation Is the Signature of Handmade Tile

Handmade ceramic tile bears the marks of the human hand—subtle shifts in color, texture, glaze, and size no machine can replicate. These variations are the essence that makes each piece alive, creating a surface full of dynamic character.

## MENTA JEWEL GLAZE

A pale mint green with occasional gray undertones that may appear lighter in the center. Higher relief and edging ranges from white gray, blue gray, to light beige and medium gold tones lightly accented by the crackle color. May appear darker in cavities.

**Moderate glaze movement | Moderate color range**

**Smaller pieces:** Expect each piece to vary greatly from light to dark.

**Medium + Larger pieces:** The hand applied glaze application will give you a full range of tones.

**Carved pieces:** Expect to see pooling in deeper areas and a lighter application on high areas.

## EXPECT TO SEE ANY OR ALL OF THIS RANGE

Natural variation in color occurs as raw materials subtly change over time
