

ENCORE CERAMICS

Glaze & Size Variation Is the Signature of Handmade Tile

Handmade ceramic tile bears the marks of the human hand—subtle shifts in color, texture, glaze, and size no machine can replicate. These variations are the essence that makes each piece alive, creating a surface full of dynamic character.

THE NATURAL COLOR AND SIZE VARIATION WITH YOUR CLIENT:

Date: _____

Salesperson: _____

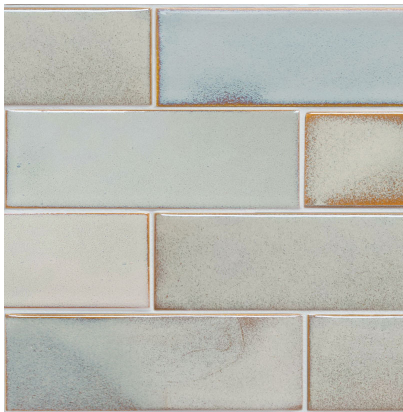

FRESCO GLOSS GLAZE

Pale olive to avocado green accented by rust brown, or varying amounts of rust brown accented by pale green. Pooling and thinning on carved surfaces dramatically increase the range of rusts, pale greens and gray tones.

High glaze movement | High color range

Smaller pieces: Expect each piece to vary greatly from light to dark.

Medium + Larger pieces: The hand applied glaze application will give you a full range of tones.

Carved pieces: Expect to see pooling in deeper areas and a lighter application on high areas.

EXPECT TO SEE ANY OR ALL OF THIS RANGE

Natural variation in color occurs as raw materials subtly change over time
